Total:	2	2	2	2	15.38%	15.38%	15.38%	15.38%

C.1.5 Explain the measures, if any, have been taken to seek to include in the board a number of women that would achieve a balanced representation of women and men:

Explanation of the measures

In the exercise of its functions, the Appointments and Compensation Committee must submit their proposals to ensure that is taken into consideration people who possess the qualifications and skills required for the position, and that the process of selection of candidates does not suffer from implicit biases that hinder the selection of persons of either sex.

C.1.6 Explain the measures, if any, had agreed the Appointments Committee for that selection procedures do not suffer from implicit biases that hinder the selection of female directors and the company deliberately search and include among the potential candidates, women who meet the professional profile searched for:

Explanation of the measures

Appointments and Compensation Committee must ensure that people of both sexes who possess the qualifications and ability required for the position are taken into consideration.

When, despite the measures, if any, have been taken, the number of female directors are few or no, explain the reasons justifying:

Explanation of the measures

Appointments and Compensation Committee has concluded that despite the fact that the directors selection policy complies with requirements, is an objective fact that the number of female directors (around 15%), differs from the objective established for 2020. In this sense, in case vacancies occur (which does not happen usually), respective parts will be encouraged to promote the selection of female directors until the objective is achieved.

C.1.6 bis. Explain the conclusions of the appointments committee on the verification of compliance with the director selection policy. In particular, explain how this policy pursues the goal of having at least 30% of total board places occupied by female directors before the year 2020.

Explanation of the measures

During 2017 (as in the two prior financial years) no vacancies have arisen in the Board of Directors. As a result, the Appointments Committee has not put into practice its policy or guidelines for the selection of board members. Inasmuch as vacancies may exist in the future, and particularly in the case of independent or executive male or female board members (i.e. not proprietary directors), with which the Appointments Committee has greater room for manoeuvre in the selection process, the selection policy will encourage compliance with the objective that, in 2020, 30% of the total number of members of the Board of Directors will be women.

C.1.7 Explain how is the representation on the board of the controlling shareholders:

Controlling shareholders (see heading A.2) have appointed proprietary external directors on the Board of Directors. Detail of proprietary external directors is provided in the heading C.1.3.

C.1.8 Explain why proprietary directors have been appointed at the instance of shareholders with less than 3% interest in the Company, if appropriate:

Indicate whether any formal requests for a presence on the Board have not been met from shareholders with an interest equal to or greater than that of others at whose request proprietary directors have been appointed. If appropriate, explain why such requests were denied.

YES

NO

C.1.9 State whether or not any Director has left the position before the end of the term, if the Director provided an explanation, and how, to the Board and, in the event this was done in writing to the entire Board, explained at least the reasons provided:

C.1.10 State the powers, if any, delegated to the managing director(s):

Description of modifications

In its meeting of 12 December 2017, the Board of Directors amended article 15 and created a new article 19bis of the Regulations of the Board of Directors, which will have the following wording:

Article 15. Board of Directors Committees.

Notwithstanding the delegations of powers that, when applicable, are made individually to the Chairman or to any other Director (CEO) and of the powers held by the Board to set up an Executive Committee, with the decision-making powers it delegates, in all cases, there will be an Audit and Compliance Committee, an Appointments and Retribution Committee, a Corporate Social Responsibility Committee and a Strategy and Transactions Committee, only with powers of information, advising and proposing in the matters determined by the following articles.

Article 19bis. The Strategy and Transactions Committee. Composition, competences and functioning.

1. The Board of Directors will also set up, on a permanent basis, a Strategy and Transactions Committee, which will be an internal body of an informative and advisory nature, without executive functions, with powers of information, advising and proposing within its sphere of activity mentioned in section 3 of this article. The Strategy and Transactions Committee will be composed of a minimum of three and a maximum of 5 Directors, appointed by the Board of Directors itself, and they can be Executive Directors or External Directors. Likewise, the Board of Directors will appoint its Chairman from the members who make up this Committee. The Strategy and Transactions Committee will appoint the person to perform the duties of Committee Secretary, who will not need to be a Director and who, in all cases, will have to comply with the obligations established for the Directors in these Regulations which, by their nature, apply to him.

2. The Directors who form part of the Strategy and Transactions Committee shall hold their positions for a maximum period of four years, notwithstanding their possible re-election. The renewal, re-election and termination of the Directors who form part of the Committee will be governed by the terms agreed by the Board of Directors.

3. Notwithstanding any other commitments that may be assigned to it at any time by the Board of Directors, the Strategy and Transactions Committee will perform the following basic functions:

(i). Evaluate and propose to the Board of Directors strategies for growth, development or diversification of the business of the Company and its Group.

(ii). Submit to the Board of Directors the opportunity to undertake new investments (both those that promote organic growth and those that enable inorganic growth through the acquisition of new companies, activities or sectors), formulating investment alternatives in assets that imply an increment in the value of the Company and its Group in the long term.

(iii). Study and propose recommendations or improvements to the strategic plans and their updating which, at all times, must be submitted to the Board of Directors.

(iv). Any other functions that could be agreed by the Company's Board of Directors.

4. The Strategy and Transactions Committee will meet at least twice a year. Likewise, a meeting will be held at the request of any of its members and whenever it is convened by its Chairman, who must do so whenever the Board or its Chairman request

the issuance of a report or the adoption of proposals and, in any event, whenever it is considered appropriate for the proper implementation of its duties.

5. At all times, the person who performs the duty of Chairman of the committee will be responsible for convening the Committee. Except in the case of emergency as decided by the Chairman, the notification will be sent to the members of the Committee at least 8 calendar days in advance, by letter, fax, telegram or electronic mail. The notification will include the agenda for the meeting. Notwithstanding, the Committee can also discuss other questions not included in the aforementioned agenda.

6. The Strategy and Transactions Committee will be validly constituted when the majority of its members, either present or represented, attend the meeting and its agreements will be adopted by overall majority of the Directors, present or represented, attending the meeting. Representation can only be granted in favour of another Director who is a member of the Committee. The Chairman and Secretary of the Committee will be those who were appointed to these offices. In the event of impossibility or absence, the Chairman will be substituted by the longest serving member of the Committee and, in case of several members with the same length of service, by the eldest member of the Committee. In the event of impossibility or absence, the Secretary will be substituted by the youngest member of the Committee.

7. The Committee must record the minutes of its meetings, which is the responsibility of the Secretary which, once approved either at the end of the meeting itself or at the following meeting, will be signed by the Chairman and the Secretary.

8. For a better performance of its duties, the Strategy and Transactions Committee may obtain the advice of external experts when considered necessary for the adequate fulfilment of its duties. Likewise, it will full powers to access all types of information, documentation or records considered necessary for this purpose.

C.1.19 Indicate the procedures for selecting, appointing, re-electing, evaluating and removing Directors. Describe the competent bodies, procedures to be followed and the criteria applied in each of the procedures.

The appointment of the members of the Board of Directors is the responsibility of the General Shareholders' Meeting, without prejudice to the power of the Board to designate members by co-optation in the event of vacancies. To this effect, Article 23 of the Articles of Association lays down that:

"4. In order to be appointed a member of the administrative body, it is not required to be a shareholder.

5. The members of the administrative body shall hold office for four years and may be re-elected once or more times for equivalent periods.

6. The members of the administrative body designated by co-optation shall hold their position until the first General Shareholders' Meeting.

7. The members of the administrative body shall cease to hold office when so decided by the General Shareholders' Meeting, when they report their resignation to the Company and when the period of their appointment elapses. In this latter case, their resignation shall be take effect on the day on which the following General Shareholders' Meeting is held or once the legal term for holding the Meeting to approve the previous year's annual accounts elapses.

8. Members of the administrative body shall perform the job and comply with the duties imposed by the Law with the diligence of an organized businessman, considering the nature of the job and the functions attributed to each. In addition, the members of the board of directors shall perform the job with the loyalty of a loyal representative, acting in good way and in the best interest of the Company. The Regulation of the Board of Directors will develop the specific duties for directors from the Law, and particularly, confidentiality, non-competition and loyalty, paying special attention to situations of conflict of interest."

Similarly, Article 23 of the regulations of the Board of Directors lays down the following:

"Article 23. Appointment of Directors.

1.- The Directors shall be designated by the General Shareholders' Meeting or by the Board of Directors in accordance with the Law.

2.- The proposal for the appointment and re-election of directors that the Board of Directors submits to the General Shareholders' Meeting for consideration and the resolutions concerning appointments adopted by that body by virtue of the powers of co-optation legally attributed to, it shall be preceded by the corresponding proposal from the Appointments and Compensation Committee in case of independent directors, or by a report in case of the remaining director.

When the Board disagrees with the Appointments and Compensation Committees' report, it shall set out the reasons for its decision and place them on record.

3. Proposals and reports from the Appointments and Compensation Committee should assess expressly the reputation, suitability solvency, competence, expertise, qualification, training, availability and commitment to its role of the candidates. For

this purpose, the Appointments and Compensation Committee will determine estimated time of dedication, in number of annual hours for non-executive directors detailing into the corresponding report or proposal.

4. The Appointments and Compensation Committee shall propose or inform in each case, the assignment of the director to one of the categories specified in the regulation and review it annually.”

C.1.20 Explain, if applicable, to what extent this evaluation has prompted significant changes in its internal organisation and the procedures applicable to its activities:

Description of modifications

As a result of the 2017 Evaluation process performed by an independent expert (Evaluación de Consejos, S.L.), no significant changes are proposed in the internal organization but actions are planned with a view to:

- Reviewing succession protocols and plans in greater depth.
- Improving procedures for selecting directors and training plans.
- Deep focusing in greater detail the role of certain statutory roles.
- Giving the Board more time to dedicate to strategy.

C.1.20.bis Describe the assessment process undertaken by the Board of Directors and the areas evaluated, with the aid of an external facilitator, with respect to the composition, duties and powers of its committees, the performance of the chairman of the board of directors and the company's chief executive officer and the performance and contribution of individual directors.

The Appointments and Compensation Committee conducts an annual evaluation of the performance of individual directors assisted by an external advisor in 2017.

In this regard, each of the directors has proceeded to respond to a questionnaire and to have a meeting with the external advisor, who has presented his report to the Board of Directors.

C.1.20.ter Explain, if applicable, the business relationship the advisor or any group company maintains with the company or any group company.

The external advisor appointed for the purpose of evaluating the Board has no other business relationship with the Company or with any of the group companies.

C.1.21 Indicate cases in which Directors are obliged to resign.

Article 26 of the Regulations of the Board of Directors of CIE AUTOMOTIVE, S.A indicates that:

“Article 26. Removal of Directors

1. The resignation of one or more of the Directors shall take place in the terms of applicable legislation.
2. Directors hold their positions at the pleasure of the Board of Directors and, if deemed appropriate, must present their resignations in the following cases:
 - a) In the case of Proprietary Directors, when he or the shareholder that he represents transfers his shareholding in the company.
 - b) In the case of executive directors, provided that the Board considers it appropriate and in any event, when he no longer holds his executive position in the company and/ or companies of the group.
 - c) When they are involved in a legal conflict of interest.
 - d) When they are tried for an alleged offence or are subject to disciplinary proceedings owing to a serious or very serious infringement of legislation, instigated by the supervisory authorities.
 - e) In the case of CEOs, they shall resign at the age of 65 but may continue as Directors without prejudice to the provisions of paragraph b) above.
 - f) When they are seriously reprimanded by the Board of Directors prior a report from the Audit and Compliance Committee owing to the breach of their obligations as Directors.”

The Audit and Compliance Committee has the task of attending the Board of Directors of the Company in monitoring financial statements as well as in carrying out control of CIE Automotive, S.A. and companies that are part of the Group.

The Committee tasks are as follows:

- Review periodically risk policies and propose the amendment and update to the Board of Directors.
- Approve policies relating to the employment of the auditor.
- Inform the General Shareholders' Meeting regarding the issues raised by shareholders regarding its competency.
- Monitor the internal control effectiveness of the Company and the Group, as well as its risk management systems, including tax.
- Analyse, together with the auditors, significant weaknesses of the internal control system detected during the audit.
- Supervise the process of the preparation and presentation of financial information.
- Propose the appointment, re-election or replacement of the external auditors to the Board of Directors for its submission to the General Shareholders' Meeting, as well as the conditions of the agreement with the auditors under the regulations applicable and regularly receive information about audit plan and its performance, as well as preserve their independence in the performance of their duties.
- Monitor the activity of Internal Audit, which will depend on the Audit and Compliance Committee.
- Establish appropriate relationships with the auditors to receive information of any issues that may put at risk their independence, for its consideration by the Committee and any others related to the development process of the audit, as well as other communications envisaged in the audit legislation statements and in other auditing regulations.

In any case, it shall receive annually from the auditors a confirmation of their independence in relation to the Company or subsidiary companies with direct or indirect interest, as well as information about additional services provided and the fees received from these entities by the auditors or by people or companies related to these in accordance with auditing legislation.

- Annually issue, prior to the auditors' report, a declaration stating an opinion regarding the independence of the auditors. In any case, this report shall mention the additional services delivered referred to in the previous section, under the terms established by law.
- Inform the Board of Directors regarding the financial information, which because of its condition as a listed company, the Company must public periodically and must ensure that the interim financial statements are prepared under the same accounting principles as the annual accounts and consider the necessity of a limited review by the auditor.
- Inform the Board of Directors, prior to the decision making, of the creation or acquisition of shares in special purpose companies or those domiciled in countries or territories considered tax havens, and any other transactions or operations whose complexity might affect to the Group's transparency.
- Other functions that might be agreed by the Board of Directors of the Company.

During the year, the most relevant performances have been the following:

- Analysis of Periodic Public Information prior to its referral to the CNMV and the Governing Societies of the Bilbao and Madrid Stock Exchanges.
- Analysis of the annual accounts (balance, profit and loss account, statement of cash flows and statement of changes in the net equity and the accompanying notes) and management report of CIE Automotive, S.A. and of its Consolidated Group for the year ended December 31, 2016.
- Follow-up of external audit procedures.
- Analysis of the internal audit procedures and, in particular, of the procedures related to the Internal Control System on the procedure for preparing Financial Information (SCIIF).
- Verification of the liabilities status of liabilities in relation to the approval of a interim dividend of the 2017 results.
- Approval of the company's fiscal strategy.
- Approval of the company's risk map

- i) To inform of the different point in the General Meeting Agenda on which is competent, and specially, the one related to the re-election of the external auditor.

Explain the committee's duties, describe the procedures and organisational and operational rules and summarise the main actions taken during the year.

The Appointment and Remuneration Committee is an informative and advisory internal body, without executive functions, with faculties to obtain information, advisory and proposals within its domain.

In this sense, the Committee tasks are as follows:

- a) Propose to the Board of Directors the remuneration policies for directors and senior executive and review them periodically, proposing, if necessary, its amendment and updating to the Board of Directors.
- b) Report and review the criteria to be followed regarding the composition of the Board of Directors and the selection of candidates, and in particular, the required skills, knowledge and experience as well as the evaluation of the time and devotion required in order to perform correctly their duties.
- c) Ensure that when there are new vacancies or the appointment of new directors, there are no bias within the selection procedures, and particularly, ones that might obstruct the selection of a female director.
- d) Set up a goal of representation for the under-represented sex on the Board of Directors and develop guidance on how to achieve that objective.
- e) Submit to the Board of Directors suggestions for the appointment of independent directors to be appointed by co-optation or for their submission to the decision of the General Meeting of Shareholders; suggest for re-election or removal of such directors by the General Meeting of Shareholders; and inform about the removal proposals of such directors made by the Board of Directors.
- f) Report the suggestions for the appointment of the remaining directors to be appointed by co-optation or for their submission to the decision of the General Meeting of Shareholders, as well as suggestions for re-election or removal of such directors made by the General Meeting of Shareholders.
- g) Report or draw up proposals for the appointment of internal positions of the Board of Directors, as well as members who should form part of each committee.
- h) Examine and organize the succession of the Board of Directors Chairman and the Chief Executive of the Company and in this case, where appropriate, make suggestions to the Board of Directors so that such succession occurs in an ordered and planned way in accordance with succession plan approved by the Board of Directors.
- i) Suggest to the Board of Directors the system and the amount of annual remuneration of directors, as well as the individual remuneration of executive directors and other basic terms of their contracts, including any eventual allowance or compensations that may be established in case of removal, in accordance with the directors remuneration policy that has been approved by the General Meeting of Shareholders.
- j) Monitor the candidates' selection process for senior executives of the Company and report the proposals made by the Chief Executive Officer of the Company concerning the appointment or removal of senior managers.
- k) Report and submit to the Board of Directors proposals made by the Chief Executive Officer of the Company related to the structure of remuneration of senior managers and the basic terms of their contracts.

E. RISK CONTROL AND MANAGING SYSTEMS

E.1 Explain the scope of the Risk Management System of the Company, including the ones referring to tax.

CIE Automotive is subject to several inherent risks to the various countries, markets and businesses in which it operates and the activities carried out in each one. Aware of the importance of the adequate management of those risks, the Board of Directors, through management, has developed and implemented a general policy of identifying and managing risks supervised by the Audit and Compliance Committee (hereinafter "ACC").

The overall process for managing corporate risks at CIE Automotive is based on the ISO 31000 method, the best practice in this area. The risk management process is based on a continuous cycle, broken down into five phases:

- I. Identify the key risks that may affect attaining the Organisation's objectives, including all financial information control objectives.
- II. Evaluate them based on probability of occurrence and their impact on the organisation, taking existing controls into consideration. These scales are useful in order to locate each risk into the Risk Map, the main risk assessment tool.
- III. Establish a response to each one.
- IV. Monitor the action taken.
- V. Report the results of the analysis performed.

E.2 Identify the bodies within the Company responsible for the development and implementation of the Risk Management System, including tax:

Responsibility for implementing the risk management system, including tax, lies on the Board of Directors, which relies specifically on the ACC for its monitoring and proper operation.

The risk management policy of CIE Automotive requires all business divisions to identify and assess the risks that must face up when achieving their business objectives in order to identify in advance the appropriate mitigating measures to reduce or eliminate the probability of risk occurrence and / or its possible impact on the goals in case they materialize.

E.3 Describe the main risks that may affect the achievement of business objectives.

In the course of its business, CIE Automotive is exposed to a variety of inherent risks in the different lines of business that develops and in countries in which they are held.

On the other hand, the different levels of socioeconomic uncertainty that exists in the markets in which CIE Automotive operates can make appear risk factors currently unknown or not considered as relevant, that could potentially affect the business, performance and/or the financial position of the company.

Are detailed briefly the main risks, which CIE Automotive faces in its business objectives:

a) Management risk

- Regulatory risks: arising from the Securities Market rules, the law for the data protection, the feasible changes in the tax legislation (national and international); and the civil responsibility for integrity of the heritage.
- Financial risks: debt levels, liquidity risk, risks arising from fluctuations in exchange rates, risks arising from changes in interest rates, risks arising from the use of financial derivatives and investment risk.
- Information risks: as much as reputational risk that can affect the image of CIE Automotive or risk related to transparency and relationship with analysts and investors.

b) Business risks: Are those that specifically affect each business and depend on the singularity of each activity.

- Operational risks: Risks relating to recruitment and customer relationships, product quality, environmental, purchasing and outsourcing.
- Non-operational risks: Risks related to the prevention, security and health in work, human resources, specific tax applicable to business, the reliability of the accounting and financial information and financial resources and debt management.

For more information regarding the risks and management measures, see the Annual Report 2017.

E.4 Identify whether the entity has a level of risk tolerance, including tax.

The Board of Directors approves the acceptable level of risk for each type of risk, type of business and location, as well as levels of allowed deviation based on the strategic objectives and the strategic lines to achieve them. The levels of acceptable risk are regularly updated accordingly with changes in corporate strategy and risk profile business.

Annually the risks that threaten the achievement of the business objectives are identified, including tax risk, and they are valued based on their potential impact on financial results and their probability of occurrence. The combination of the impact and the probability of occurrence determine the severity of the risk.

E.5 Indicate which risks, including tax, have been materialized during the year.

The results of the risk assessment taken place in 2017 shows the alignment between the risk map which was used and defined in 2016 with the company strategy and the internal control system effectiveness in the operational field since no key risks identified have been materialized in 2017.

E.6 Explain the response and supervision plans held for the company's major risks, including the ones referring to tax.

CIE Automotive has a corporative system to control and supervise risks. Corporate risk management system is also supported by each business unit, in which each management level is responsible for the compliance with internal rules and procedures.

The evaluation and verification of their effectiveness is performed periodically by Compliance department, has qualified and experienced personnel, independent of the business lines staff. Alerts, recommendations and conclusions generated are communicated to CIE Automotive management.

Among the measures taken by CIE Automotive for monitoring risks, include:

- Setting goals and internal regulations (policy, standards, procedures and manuals).
- Definition, monitoring and continuous evaluation of the design and performance of internal control systems and compliance.

During the process of the elaboration of the Risk Map 2017, the Company has worked on the identification of new responses and consolidation lines, for the most relevant risks for the company.

It is important to highlight that CIE Automotive has units of analysis, monitoring and control in various areas of management risks, such as:

- Financial risk assessment and management
- Safety and environmental standards
- Corporate Social Responsibility
- Reporting and tax risks
- Risks and continuity information systems

F. DESCRIPTION OF THE MAIN CHARACTERISTICS OF THE INTERNAL CONTROL AND RISK MANAGEMENT SYSTEMS IN RELATION TO THE PROCESS FOR THE REPORTING OF FINANCIAL INFORMATION.

Describe mechanisms that make control systems and risk management in relation to the process of

financial reporting (SICFR) in your company.

F.1 Company control environment.

Report, noting the main features of at least:

F.1.1 The bodies and/or functions which are responsible for: (i) the existence and maintaining of an adequate and effective SICFR; (ii) its implementation; and (iii) its supervision.

The Board of Directors of CIE Automotive, is the body responsible, among other matters, for the updating and on-going improvement of the Company's Corporate Governance System - in accordance with currently-applicable legislation and generally-recognized corporate governance recommendations -, through the resolutions it considers necessary or advisable for this purpose, which are either passed by the Board itself, when they fall within the scope of its competence, or proposed to the General Meeting. These functions are understood to include its responsibility as regards the existence and maintaining of the Company's internal control system (hereinafter the SICFR).

The CIE Automotive Audit and Compliance Committee (hereinafter "ACC") is the body responsible for the supervision of the efficacy of the SICFR, the internal audit function, and the corporate risks management process, and for discussing with the accounting auditors or audit firms any significant weaknesses in the internal control system which have been detected during the course of the audit.

The ACC is supported by the Compliance Department to perform these functions, being responsible for the implementation of SICFR and in general, the whole internal control system of CIE Automotive, ensuring the definition and design of the control procedures which should be implemented in the company's operational planning, compliance with legal regulations, internal policies and procedures.

F.1.2 Whether there exist – particularly in relation to the process for the preparation of financial information – the following:

- Departments and/or mechanisms entrusted with: (i) the design and review of the organizational structure, (ii) clearly defining lines of responsibility and authority, and a suitable distribution of tasks and functions, (iii) ensuring that there are sufficient procedures correctly disseminated within the Company.

The Board of Directors is the ultimate body responsible for defining and periodically reviewing the organizational structure of CIE. The Board delegates to the Company's Senior Management the task of ensuring that subordinate structures are equipped with adequate human and material resources. With regard to the process of the preparation of financial information, there exists a global interrelated financial department which depends on the departments of Audit and Control Management and the Department of Treasury and Finance.

The responsibilities and functions of all people directly involved in the preparation and review of financial information are defined and adequately communicated within the framework of CIE Automotive's internal policies and procedures.

There are internal protocols, which guarantee that information on any change that is taking place in relation to the preparation of financial information is distributed to the appropriate personnel in good time and in the correct form. There are also controls in place for the identification of any irregularity in this aspect.

- A code of conduct, including the body responsible for its approval, level of dissemination and instruction, principles and values included (indicate whether any specific mentions are made of the recording of operations and preparation of financial information), and the body responsible for analyzing breaches of such code and proposing corrective action and penalties.

CIE Automotive currently has an "Internal Code of Professional Conduct" and an "Internal Regulations on Conduct in relation to Securities Markets". There is a special section about the reliability of the financial information where there are established specific standards addressed to the people involved in the preparation of the financial information process.

Both documents are published on the corporate website and are distributed to all affected personnel through the communication channels established for this purpose. In either cases, the body responsible for their definition and approval is the Board of Directors.

The Internal Code of Professional Conduct lays down some basic rules and principles whose purpose is to ensure that there is a commitment and transparency in relations and operations with customers, suppliers and employees, the maximization and protection of shareholders' investments and the safeguarding of health, security and environmental issues. The Code also establishes the need for controls over payment operations and over any situation of conflict of interests involving employees.

The functions of the Corporate Social Responsibility (CSR) include the monitoring of compliance with the aforementioned codes/regulations.

- A whistle-blowing channel for communication to the audit committee of any financial and accounting irregularities, plus possible breaches of the code of conduct and irregular activities taking place within the organization, indicating, where appropriate, the confidential nature of such information.

CIE Automotive has a whistle-blowing channel for the receipt of notifications/reports relating to irregular conduct or activities implying any breach of the principles and ethical rules regarding the reliability of financial information laid down in the "Internal Code of Professional Conduct" or in the "Internal Regulations on Conduct in relation to Securities Markets".

There are Regulations setting out the process for the functioning of the whistle-blowing channel, which guarantees that reports can be submitted by either named staff members or anonymously, being always guaranteed the whistleblowers' confidentiality, in case he wants, and a protocol for action for analysis of complaints received, and reported to the CSR for monitoring.

- Training and periodic refresher programs aimed at the personnel involved in the preparation and review of financial information and assessment of the SICFR which cover, as a minimum, accounting standards, auditing, internal control and risks management.

As well as a variety of staff training programs, CIE Automotive has the following additional resources of which use is made for the training and support of personnel involved in the preparation and review of financial information.

- There is an Accounting Policies Manual, which is updated on an on-going basis.
- There is an Accounting and Management control department, whose tasks is to resolve any doubts regarding the interpretation of the Manual Accounting Policies, and provide advice regarding the treatment of complex transactions.
- There are divisional/regional controllers who are involved in the support provided to all people forming part of the financial function at all the Group's plants and companies, through on-going internal assessment and training.
- When a new company joins the Group, support strategies are developed to train its employees in accordance with the Group's standards and criteria.
- Advice is received from external advisors in relation to changes in accounting, legal and tax rules, which may affect the Company.

F.2 Risk assessment of financial information.

Report at least:

F.2.1. What are the main characteristics of the process of identifying risks, including risks of error or fraud, as to:

- Whether there exists such a process and whether it is documented.

The global Corporate Risks Management process is based on the ISO 31000 and on a continuous cycle comprising five phases:

- I. The identification of key risks, which may affect the fulfilment of the Organization's objectives, including all financial information control objectives, tax objectives as well.
- II. The evaluation of such risks based on the probability of occurrence and their impact on the organization, taking the existing controls into consideration. These scales are useful in order to locate each risk into the Risk Map, the main risk assessment tool.
- III. Determination of the required response for each such risk.
- IV. Monitoring of the agreed courses of action; and
- V. reporting of the results of the analysis made.

The process of identification and assessment of risks are tasks for the Senior Management and executive team. They self-assess the risks identified, with Compliance department acting as coordinator in this process.

The result obtained is a Risk Map, and a list of steps to be taken for the proper management of risks.

The above is complemented by activities for the monitoring of the management of certain risks, which are carried out by the Compliance department.

- Whether the process covers all financial reporting objectives, (existence and occurrence; integrity; measurement; presentation, breakdown and comparability; and rights and obligations), whether it is updated, and how frequently.

As is indicated in the procedure, the identification and analysis of risks cover all aspects of financial information, which may have a material impact on its reliability.

The Risks Map is required to be updated annually as a minimum. However, in the event of circumstances arising during the year, which require specific steps to be taken for the management of a potential risk, the appropriate measures are adopted.

- The existence of a process for the identification of the consolidation scope taking into account, among other aspects, the possible existence of complex corporate structures, and instrumental or special-purpose companies.

The process for the identification and assessment of risks takes into consideration all processes, group companies and their various structures, and specific characteristics of each country and business line, with particular attention being paid to risks deriving from transactions which, owing to their foreseen level of complexity or significance, require specialized management.

- Whether the process takes into account the effects of other risk types (operational, technological, financial, legal, reputational, environmental, and so on) insofar as these affect the financial statements.

As it has been mentioned above, the model is based on the ISO 31000 methodology that taking as its starting point the Organizations' objectives, results in a Risk Map that is updated annually, monitoring among others, financial risks, tax and legal and those from different typology (operational, strategic, compliance, environmental, Corporate Social Responsibility, fraud, etc.).

- The governing body, which supervises the process.

This entire process is reviewed and approved by the ACC, which is the body, which ultimately determines whether the process of identification, assessment and monitoring of the Company's risks and, specifically, the measures aimed at identifying material risks in relation to financial information, are appropriate and sufficient.

F.3 Control activity.

Report, noting their main features, if you have at least:

- F.3.1 Procedures for reviewing and authorising the financial information and description of SICFR to be disclosed to the markets, stating who is responsible in each case and documentation and flow charts of activities and controls (including those addressing the risk of fraud) for each type of transaction that may materially affect the financial statements, including procedures for the closing of accounts and for the separate review of critical judgements, estimates, evaluations and projections.

The Board of Directors is the highest responsible body for approving and monitoring the Group's financial statements. The Group sends quarterly information to the stock market. This information is prepared by the Audit and Management Control department, which performs a number of control activities during the accounting closing period to ensure reliability of financial information.

In addition to the actual closure-of-accounts procedure, and prior to the process for the preparation and review of financial information, CIE Automotive has control procedures and activities taking place in other key areas of the company which purpose is to ensure that transactions are properly recorded, measured, presented and broken down, and accordingly to prevent and detect fraud and thus cover all transactions that could materially affect the CIE Automotive's financial statements.

The key processes of the company, including closing, for which have been defined risk and control matrices, are as follows:

1. Closing, consolidation and reporting
2. Property, plant and equipment
3. Financial assets and liabilities
4. Inventories
5. Revenue/Account receivable
6. Treasury

7. Accruals
8. Cost of sales/Account payable
9. Human Resources
10. Tax

The financial statements are prepared based on a reporting schedule and deadlines, known by all participants in the process, taking into account the time for legal delivery.

Furthermore, and for the review of judgments, opinions, assessments and projections, the Manual of Accounting Policies defines the criteria for CIE Automotive existing application approach.

The aforementioned significant transactions are reviewed by the company's Board of Directors through various processes (review, approval and monitoring of the Strategic Plan and Budget, and the review of the most significant accounting estimates and accounting judgments used in the preparation of financial information), once the ACC has confirmed that the information is adequate.

F.3.2 Internal control policies and procedures relating to information systems (including, among others, access security, control over changes, operation of such systems, operating continuity and segregation of duties) which support the entity's significant processes in relation to the preparation and publication of financial information.

CIE Automotive has internal control policies and procedures in place in respect of information systems, which support its significant processes, including the process for the preparation and review of financial information. This policy and framework policy is based on a catalogue of international standards ISO 27000.

CIE Automotive uses information systems for the correct recording and control of its operations; it is therefore highly dependent on their correct functioning.

As part of the process for the identification of risks of misstatement in financial information, CIE Automotive identifies the systems and applications, which are relevant in each of the areas or processes considered significant. The systems and applications identified include both those, which are used directly in the preparation of financial information, and those, which are relevant to the efficacy of controls, which reduce the risk of misstatement in such information.

CIE Automotive has a security policy systems defined at the corporate level aimed at achieving the security objectives identified.

The objective is to adopt the pertinent measures of an organizational, technical and documentary nature necessary to guarantee the desired level of security. The work performed in this connection relates to the following areas:

- Access control and user administration.
- Management of changes.
- Back-up and recovery.
- Physical security.
- Control of subcontractors.
- Provision of resources, risk purging and business maintenance.

Critical business processes for CIE Automotive have different organizational and technological solutions that guarantee business continuity.

F.3.3 Internal control policies and procedures for supervising the management of activities outsourced to third parties, as well as aspects of assessment, calculation or measurement entrusted to independent experts, which may have a material impact on the financial statements.

In general, CIE Automotive does not outsource any activities considered relevant that could affect substantively to financial information.

In any case, CIE Automotive has a management procedure in place in respect of activities outsourced to third parties, the purpose of which is to define the controls to be applied to activities outsourced to third parties, which have a significant impact on the financial information prepared by CIE Automotive.

Based on the analysis undertaken, the view has been formed that during 2017 the only area outsourced with a possible material impact on the financial information of the Group is the Information Systems area. In this respect, CIE Automotive has verified that the supplier company has the obtained appropriate certifications as to the adequacy of its control environment, and that such certifications are periodically validated by an independent party.

In addition, there are control activities taking place periodically in CIE Automotive (included in the aforementioned risk and control matrices) which also play a part in validating the control environment in this area.

Responsibility with respect to other activities in relation to significant transactions which are entrusted to independent experts (e.g. tax advisory services, relationship with actuarial experts and derivative management) remains within CIE Automotive specific monitoring work being required to guarantee their reliability.

F.4 Communication and information.

Report, noting their main features, if you have at least:

F.4.1 A specific function responsible for defining and updating accounting policies (area or department of accounting policies) and resolve questions or disputes regarding its interpretation, maintaining fluid communication with those responsible for transactions at the organization, as well as an updated accounting policies manual to be communicated to the subsidiaries through which the company operates.

The Role of Accounting Policies is assumed by the Audit and Compliance department, which depends directly from the Chief Executive Officer.

In performing this function, the department assumes the following responsibilities:

- Maintenance and dissemination of CIE Accounting Policy Manual (Continuous Update) to other Group companies.
- Update any changes in accounting rules applicable to all members of the finance function of CIE.
- Resolution of disputes that may arise (individually or in a consolidated level) in the interpretation of the rules to be applied.
- Mechanisms for capturing and preparing financial information homogenously.

F.4.2 Mechanisms for financial information gathering and preparation in standard format, application and use by all units of the entity or the group, supporting key financial statements and notes, as well as information concerning SICFR.

CIE Automotive has a specific system for financial reporting and consolidation, which is used in all group units, allowing the capture of financial information homogenously. This system is also used, in turn, to the development of aggregation and consolidation of the data reported.

Additionally, for the collection of the SICFR information, CIE is involved in the implementation process of SAP GRC tool in all Group units.

F.5 System performance monitority

Report, noting its main features, at least:

F.5.1 Monitoring activities conducted by the SICFR audit committee and whether the entity has an internal audit function whose competencies include the support to the committee in its oversight of the internal control system, including SICFR. Also informing of the scope of the assessment of SICFR in the exercise and the process by which the responsible for implementing the evaluation reports its results, if the entity has an action plan detailing any corrective measures, and whether it has considered its impact on financial reporting.

The ACC has the following oversight responsibilities of SICFR:

- Supervision of periodic financial information.
- Monitoring and evaluation of the operation of SICFR.
- Knowing the financial reporting process and internal control systems associated with significant risks of company.
- Periodically review internal control and risk management systems, so main risks are identified, managed and properly disclosed.

CIE Automotive has a Corporate Internal Audit Department, which depends on the Compliance department and this in turn to the ACC, which coordinates the Internal Auditing teams in Europe(including Russia and Morocco in the scope), Mexico, Brazil and India whose members are exclusively dedicated to these functions.

The main function of the Internal Audit Department is overseeing the internal control system, within which there are included issues such as supervision of the correct implementation of the risk management system, in which it is also included the managing of the risk of fraud, and controls aimed at reliability of financial information.

Based on the results of the risk assessment, the Internal Audit department prepares an annual plan of CIEs' SICFR, to be submitted in each period for approval by the ACC as responsible for overseeing the SICFR.

The information to be provided to the market or stakeholders about SICFR will have an annual basis and shall cover the period of the corresponding financial report.

- F.5.2 If you have a discussion process by which the auditor (in accordance with the provisions of the NTA), the internal audit function and other experts can communicate to senior management and the audit committee or board of the entity significant internal control weaknesses identified during the review process of the annual accounts or those that have been entrusted to them. It should also report on whether an action plan to correct or mitigate the weaknesses observed exists.

The auditor participates actively in the meetings of the ACC. Furthermore, the auditor issues annually a report of internal control weaknesses, which is submitted to the ACC for the adoption of measures deemed appropriate.

Additionally, CIE Automotive has a procedure allowing any external advisors, in the exercise of its activity, to detect the existence of internal control weaknesses, and communicate through Internal Audit department to the ACC's detected issues for discussion, analysis and evaluation.

F.6 Other relevant information.

F.7 External auditor report.

Report of:

- F.7.1 If SICFR information supplied to markets has been reviewed by the external auditor, in which case the entity should include the report. Otherwise, it should report its reasons.

CIE Automotive has submitted to an External Auditor the effectiveness of internal control system on the Financial Reporting (SICFR), in relation to the financial information contained in the Groups' consolidated annual accounts at December 31, 2017.

A copy of the opinion of the External Auditor is attached.

G. COMPLIANCE WITH CORPORATE GOVERNANCE RECOMMENDATIONS

Indicate the degree of conformance of the company to the recommendations of the Unified Code of Good Governance.

In the event that any recommendation is not followed or partially followed, include a detailed explanation of its reasons so that shareholders, investors and the market in general, have sufficient information to evaluate the behaviour of the Company. General explanation will not be acceptable.

1. The Articles of Association of listed companies should not place an upper limit on the votes that can be cast by a single shareholder, or impose other obstacles to the takeover of the company by means of share purchases on the market.

Explain

2. When a dominant and a subsidiary company are stock market listed, the two should provide detailed disclosure on:

- a) The type of activity they engage in and any business dealings between them, as well as between the subsidiary and other group companies;
- b) The mechanisms in place to resolve possible conflicts of interest.

Comply Partially comply Explain Not applicable

It should be noted that CIE Automotive and its listed subsidiary Global Dominion Access (i) have no business relations (ii) and consequently could not lead to possible conflicts of interest. These are unlikely to occur as there are no business relations.

In any case, by the fact that there are no business relations, it is not necessary to define with more precision “the eventual business relation between the parent and the listed subsidiary and between the listed subsidiary and the remaining of the group companies” and “the mechanisms in place to resolve possible conflicts of interest”

Consequently, it is not considered necessary to define publicly their relation and thus the Company considers that the recommendation is partially complied.

3. During the annual general meeting, the chairman of the board should verbally inform shareholders in sufficient detail of the most relevant aspects of the company’s corporate governance, supplementing the written information circulated in the annual corporate governance report. In particular

- a) Changes taking place since the previous annual general meeting.
- b) The specific reasons for the company not following a given Good Governance Code recommendation, and any alternative procedures followed in its stead.

Comply Partially comply Explain

The framework of normal running of the General Shareholders’ Meeting, we inform those of the relevant circumstances occurred since the last meeting, including, issues of corporate governance (i.e. adoption of new Board of Directors regulation, creation of the Corporate Social Responsibility Committee, etc.).

However, it is not considered important to emphasize why the CIE Automotive, S.A. does not follow any specific recommendation to the extent that (i) no circumstances seem sufficiently relevant, and (ii) those circumstances, if appropriate, are included in the Annual Corporate Governance Report, (to which shareholders have access)

4. The company should draw up and implement a policy of communication and contacts with shareholders, institutional investors and proxy advisors that complies in full with market abuse regulations and accords equitable treatment to shareholders in the same position.

This policy should be disclosed on the company’s website, complete with details of how it has been put into practice and the identities of the relevant interlocutors or those charged with its implementation.

Comply Partially comply Explain

5. The board of directors should not make a proposal to the general meeting for the delegation of powers to issue shares or convertible securities without pre-emptive subscription rights for an amount exceeding 20% of capital at the time of such delegation.

When a board approves the issuance of shares or convertible securities without pre-emptive subscription rights, the company should immediately post a report on its website explaining the exclusion as envisaged in company legislation.

Comply Partially comply Explain

6. Listed companies drawing up the following reports on a voluntary or compulsory basis should publish them on their website well in advance of the annual general meeting, even if their distribution is not obligatory:

- a) Report on auditor independence.
- b) Reviews of the operation of the audit committee and the appointments and remuneration committee.

- c) Audit committee report on third-party transactions.
- d) Report on corporate social responsibility policy.

Comply Partially comply Explain

As a result of the holding the Shareholders General Meeting in 2018, the referred reports will be published.

7. The company should broadcast its general meetings live on the corporate website.

Comply Explain

Given the characteristics of CIE Automotiva, S.A. shareholders, and in light of the assistance to the Boards, CIE Automotiva, S.A. does not consider relevant live broadcast of the Shareholders General Meeting through its website.

In view of the size, capitalization, composition of share capital and the normal development of the meetings of the General Board, the Company considers that live streaming would not have a broad reception. Consequently, the measure would have more cost than benefits involved and its implementation would not add value to the corporate government.

8. The Audit committee should strive to ensure that the board of directors could present the company's accounts to the general meeting without limitations or qualifications in the auditor's report. In the exceptional case that qualifications exist, both the chairman of the audit committee and the auditors should give a clear account to shareholders of their scope and content.

Comply Partially comply Explain

9. The company should disclose its conditions and procedures for admitting share ownership, the right to attend general meetings and the exercise or delegation of voting rights, and display them permanently on its website.

Such conditions and procedures should encourage shareholders to attend and exercise their rights and be applied in a non-discriminatory manner.

Comply Partially comply Explain

10. When an accredited shareholder exercises the right to supplement the agenda or submit new proposals prior to the general meeting, the company should:

- a) Immediately circulate the supplementary items and new proposals.
- b) Disclose the model of attendance card or proxy appointment or remote voting form duly modified so that new agenda items and alternative proposals can be voted on in the same terms as those submitted by the board of directors.
- c) Put all these items or alternative proposals to the vote applying the same voting rules as for those submitted by the board of directors, with particular regard to presumptions or deductions about the direction of votes.
- d) After the general meeting, disclose the breakdown of votes on such supplementary items or alternative proposals.

Comply Partially comply Explain Not applicable

11. In the event that a company plans to pay for attendance at the general meeting, it should first establish a general, long-term policy in this respect.

Comply Partially comply Explain Not applicable

12. The board of directors should perform its duties with unity of purpose and independent judgement, according the same treatment to all shareholders in the same position. It should be guided at all times by the company's best interest, understood as the creation of a profitable business that promotes its sustainable success over time, while maximising its economic value.

In pursuing the corporate interest, it should not only abide by laws and regulations and conduct itself according to principles of good faith, ethics and respect for commonly accepted customs and good practices, but also strive to reconcile its own interests with the legitimate interests of its employees, suppliers, clients and other stakeholders, as well as with the impact of its activities on the broader community and the natural environment.

Comply Partially comply Explain

13. The board of directors should have an optimal size to promote its efficient functioning and maximise participation. The recommended range is accordingly between five and fifteen members.

Comply Explain

14. When The board of directors should approve a director selection policy that:

- a) Is concrete and verifiable.
- b) Ensures that appointment or re-election proposals are based on a prior analysis of the board's needs.
- c) Favours a diversity of knowledge, experience and gender.

The results of the prior analysis of board needs should be written up in the appointments committee's explanatory report, to be published when the general meeting is convened that will ratify the appointment and re-election of each director.

The director selection policy should pursue the goal of having at least 30% of total board places occupied by women directors before the year 2020.

The appointments committee should run an annual check on compliance with the director selection policy and set out its findings in the annual corporate governance report.

Comply Partially comply Explain

Given the usual lack of vacancies in the Board of Directors, it does not exist such a policy for the selection of directors, without prejudice that prevail the fulfilment of the required objectives by this recommendation in the Board of Directors' decisions in the context of the various appointments. So far, the standards, which have guided to the Appointments and Compensation Committee and the Board of Directors in the selection process for the directors, have satisfactorily passed the established requirements in the recommendation. In the future, it is hoped that the level of selection and compliance of the requirements of the diversity of knowledge, experience and especially gender, despite the absence of a selection policy.

15. The Proprietary and independent directors should constitute an ample majority on the board of directors, while the number of executive directors should be the minimum practical bearing in mind the complexity of the corporate group and the ownership interests they control.

Comply Partially comply Explain

16. The percentage of proprietary directors out of all non-executive directors should be no greater than the proportion between the ownership stake of the shareholders they represent and the remainder of the company's capital.

This criterion can be relaxed:

- a) In large cap companies where few or no equity stakes attain the legal threshold for significant shareholdings.
- b) In companies with a plurality of shareholders represented on the board but not otherwise related.

Comply Explain

In line with paragraph (b) of this recommendation, CIE Automotive, S.A. has a number of significant shareholders represented in the Board of Directors, without any relationship.

The eventual overrepresentation of Proprietary Directors that might be detected is attenuated by the diversity of interest of the significant shareholders who form the board.

The Company considers that the balanced proportion, which is expressed by the recommendation, is adequately attenuated by the diversity of interest of the significant shareholders. Proprietary directors with different knowledge, experience and profile represent them in the Board of Directors.

17. Independent directors should be at least half of all directors

However, when the company does not have a large market capitalization, or when a large cap company has shareholders individually or concertedly controlling over 30 per cent of capital, independent directors should occupy, at least, a third of board places.

Comply Explain

CIE Automotive, S.A. believes that the number of independent directors reflects correctly the current shareholding composition of the company.

Since the Company is not consider as large-caps, the ratio of independents directors over total directors in the Board of Directors is a 15%. It does not achieve a third of the board place recommended, however if it is included both independent director and external directors the ratio is a 77%.

The Company considers that the referred proportions are appropriate for the configuration of the Board of Directors considering the shareholders composition and thus it is not necessary to include more independent directors, by the moment. The company contemplate the number of external directors (three-quarters of the directors) enable Board to take decisions with the necessary levels of quality, objective and independence for the right formation of the corporate will. Notwithstanding the foregoing, will be promoted the inclusion of the independents directors for the successive appointments.

18. The Companies should disclose the following director particulars on their websites and keep them regularly updated:

- a) Background and professional experience.
- b) Directorships held in other companies, listed or otherwise, and other paid activities they engage in, of whatever nature.
- c) Statement of the director class to which they belong, in the case of proprietary directors indicating the shareholder they represent or have links with.
- d) Dates of their first appointment as a directors and subsequent re-elections.
- e) Shares held in the company, and any options on the

Comply Partially comply Explain

Although there is no specific section on the web page that grouped the information indicated in the recommendation, it is found in the Annual Corporate Governance Report (accessible at all times from the website) and in the section of the website reserved for the Board. of administration; with what the Company understands that the content of the information is sufficient for the purposes that are pre-selected and in relation to the profiles of the members of the Board of Directors.

19. Following verification by the appointments committee, the annual corporate governance report should disclose the reasons for the appointment of proprietary directors at the urging of shareholders controlling less than 3 per cent of capital; and explain any rejection of a formal request for a board place from shareholders whose equity stake is equal to or greater than that of others applying successfully for a proprietary directorship.

Comply Partially comply Explain Not applicable

20. Proprietary directors should resign when the shareholders they represent dispose of their ownership interest in its entirety. If such shareholders reduce their stakes, thereby losing some of their entitlement to proprietary directors, the latter's number should be reduced accordingly.

Comply Partially comply Explain Not applicable

21. The board of directors should not propose the removal of independent directors before the expiry of their tenure as mandated by the bylaws, except where they find just cause, based on a proposal from the appointments committee. In particular, just cause will be presumed when directors take up new posts or responsibilities that prevent them allocating sufficient time to the work of a director, or are in breach of their fiduciary duties or come under one of the disqualifying grounds for classification as independent enumerated in the applicable legislation.

The removal of independent directors may also be proposed when a takeover bid, merger or similar corporate transaction alters the company's capital structure, provided the changes in board membership ensue from the proportionality criterion set out in recommendation 16.

Comply Explain

22. Companies should establish rules obliging directors to disclose any circumstance that might harm the organisation's name or reputation, tendering their resignation as the case may be, and, in particular, to inform the board of any criminal charges brought against them and the progress of any subsequent trial.

The moment a director is indicted or tried for any of the offences stated in company legislation, the board of directors should open an investigation and, in light of the particular circumstances, decide whether or not he or she should be called on to resign. The board should give a reasoned account of all such determinations in the annual corporate governance report.

Comply Partially comply Explain

The recommendation 22 include two reasons or circumstances to resign: (i) circumstance that might harm the organisation's name or reputation. (ii) The director is indicted or tried for any of the offences stated in company legislation.

The article 26.2(d) The Board of Directors regulation of the Company establish as resign circumstances: "When the directors are indicted for an allegedly criminal act or are subject to a disciplinary proceeding for serious or very serious fault instructed by the supervisory authorities".

Regard to the second reason or circumstance described in the 22 recommendation, this is included in the Board of Directors regulations (The expression "are indicted" include the order opening similar to an indictment act in the summary proceedings. Furthermore, the level of requirements of the Board of Directors regulation is higher than the recommended, because this include any kind of offence (not only the referred in the company legislation). It overcome the jurisdictional criminal scope inasmuch as include the initiation of disciplinary proceedings and thus the Company comply the second circumstance of the recommendation.

Regard to the first reason or circumstance described in the 22 recommendation, the Company considers that it is extremely broad and abstract. Inasmuch as the objective of is sufficiently covered by the article 26.2 (d) to (f) sections of the Board of Directors regulation. In any case, the company does not fully comply.

23. Directors should express their clear opposition when they feel a proposal submitted for the board's approval might damage the corporate interest. In particular, independents and other directors not subject to potential conflicts of interest should strenuously challenge any decision that could harm the interests of shareholders lacking board representation.

When the board makes material or reiterated decisions about which a director has expressed serious reservations, then he or she must draw the pertinent conclusions. Directors resigning for such causes should set out their reasons in the letter referred to in the next recommendation.

The terms of this recommendation also apply to the secretary of the board, even if he or she is not a director.

Comply Partially comply Explain Not applicable

24. Directors who give up their place before their tenure expires, through resignation or otherwise, should state their reasons in a letter to be sent to all members of the board. Whether or not such resignation is disclosed as a material event, the motivating factors should be explained in the annual corporate governance report.

Comply Partially comply Explain Not applicable

25. The appointments committee should ensure that non-executive directors have sufficient time available to discharge their responsibilities effectively.

The board of director's regulations should lay down the maximum number of company boards on which directors can serve.

Comply Partially comply Explain

The Board of Directors of the Company have a balanced composition regard the director's category. The directors, who act as directors in other companies, have evidenced that these functions do not prevent the sufficient dedication to the task assigned to the CIE Automotive directors.

The Appointments and Compensation Committee in the independent director appointment or assessment, or any other director, asses that dedication ability of the candidate.

For these reasons, the Company considers that it is not necessary to include this limitation in the Board of Directors regulation.

26. The board should meet with the necessary frequency to properly perform its functions, eight times a year at least, in accordance with a calendar and agendas set at the start of the year, to which each director may propose the addition of initially unscheduled items.

Comply Partially comply Explain

The Company considers that is not necessary the minimal recommended frequency (8 meeting each year). For various reasons such as, the existence of three executive directors including the Chief Executive Officer who can take executive decisions. Furthermore, in practice the number of annual meetings (6) of this committee have been revealed enough.

27. Companies Director absences should be kept to a strict minimum and quantified in the annual corporate governance report. In the event of absence, directors should delegate their powers of representation with the appropriate instructions.

Comply Partially comply Explain

The absences of the directors are quantified in the Annual Corporate Governance Report. It should be noted that in the majority of cases, absent directors proceed to delegate their representation to other directors, although they do not grant representation with specific instructions, but leave the direction of the representative director the direction of the vote. Although this practice does not comply with the recommendation, in all the sessions in which this circumstance occurred, the number of absences (although represented without instructions) was not significant, the absent counselors having been duly represented through the representatives indicated.

28. When directors or the secretary express concerns about some proposal or, in the case of directors, about the company's performance, and such concerns are not resolved at the meeting, they should be recorded in the minute book if the person expressing them so requests.

Comply Partially comply Explain Not applicable

29. The company should provide suitable channels for directors to obtain the advice they need to carry out their duties, extending if necessary to external assistance at the company's expense.

Comply Partially comply Explain

30. Companies Regardless of the knowledge directors must possess to carry out their duties, they should also be offered refresher programmes when circumstances so advise.

Comply Explain Not applicable

31. The agendas of board meetings should clearly indicate on which points directors must arrive at a decision, so they can study the matter beforehand or gather together the material they need.

For reasons of urgency, the chairman may wish to present decisions or resolutions for board approval that were not on the meeting agenda. In such exceptional circumstances, their inclusion will require the express prior consent, duly minuted, of the majority of directors present.

Comply Partially comply Explain

32. Directors should be regularly informed of movements in share ownership and of the views of major shareholders, investors and rating agencies on the company and its group.

Comply Partially comply Explain

33. The chairman, as the person charged with the efficient functioning of the board of directors, in addition to the functions assigned by law and the company's bylaws, should prepare and submit to the board a schedule of meeting dates and agendas; organise and coordinate regular evaluations of the board and, where appropriate, the company's chief executive officer; exercise leadership of the board and be accountable for its proper functioning; ensure that sufficient time is given to the discussion of strategic issues, and approve and review refresher courses for each director, when circumstances so advise.

Comply Partially comply Explain

34. When a lead independent director has been appointed, the bylaws or board of directors regulations should grant him or her the following powers over and above those conferred by law: chairman the board of directors in the absence of the chairman or vice chairmen give voice to the concerns of non-executive directors; maintain contacts with investors and shareholders to hear their views and develop a balanced understanding of their concerns, especially those to do with the company's corporate governance; and coordinate the chairman's succession plan.

Comply Partially comply Explain Not applicable

35. The board secretary should strive to ensure that the board's actions and decisions are informed by the governance recommendations of the Good Governance Code of relevance to the company.

Comply Explain

36. In The board in full should conduct an annual evaluation, adopting, where necessary, an action plan to correct weakness detected in:

- a) The quality and efficiency of the board's operation.
- b) The performance and membership of its committees.
- c) The diversity of board membership and competences.
- d) The performance of the chairman of the board of directors and the company's chief executive.

- e) The performance and contribution of individual directors, with particular attention to the chairmen of board committees.

The evaluation of board committees should start from the reports they send the board of directors, while that of the board itself should start from the report of the appointments committee.

Every three years, the board of directors should engage an external facilitator to aid in the evaluation process. This facilitator's independence should be verified by the appointments committee.

Any business dealings that the facilitator or members of its corporate group maintain with the company or members of its corporate group should be detailed in the annual corporate governance report.

The process followed and areas evaluated should be detailed in the annual corporate governance report.

Comply Partially comply Explain

37. When an executive committee exists, its membership mix by director class should resemble that of the board. The secretary of the board should also act as secretary to the executive committee.

Comply Partially comply Explain Not applicable

The Executive Committee reflect an adequate composition for the assigned duties. The duties of the executive committee of the Company are principally monitoring the ordinary course of business, with a character markedly industrial. Therefore instead of replicate the composition of the Board of Directors, the Company considers that is better that directors with an executive or industrial professional profile formed the composition of Executive Committee.

In any case, this Committee has ceased in its functions with effects 1 January 2018, whilst no meetings were held during 2017.

38. The board should be kept fully informed of the business transacted and decisions made by the executive committee. To this end, all directors should receive a copy of the committee's minutes.

Comply Partially comply Explain Not applicable

First of all, the Executive Committee has held no meeting in 2017. In any case, given the functions of the Executive Committee and its essential task of monitoring the business, is not necessary to bring minutes of the Executive Commission to the rest of the Board of Directors.

The reason for this circumstance is essentially that the Executive Committee has not taken decision actions, reserved to Board of Directors, the duties of the committee are carry out tracking of the business, the information from the monitoring task are reported to the Boards of Directors in each meeting. Due to these causes the Company have not considered necessary the compliance of the recommendation.

39. All members of the audit committee, particularly its chairman, should be appointed with regard to their knowledge and experience in accounting, auditing and risk management matters. A majority of committee places should be held by independent directors.

Comply Partially comply Explain

40. Listed companies should have a unit in charge of the internal audit function, under the supervision of the audit committee, to monitor the effectiveness of reporting and control systems. This unit should report functionally to the board's non-executive chairman or the chairman of the audit committee.

Comply Partially comply Explain

41. The head of the unit handling the internal audit function should present an annual work programme to the audit committee, inform it directly of any incidents arising during its implementation and submit an activities report at the end of each year.

42. The audit committee should have the following functions over and above those legally assigned:

1. With respect to internal control and reporting systems:

- a) Monitor the preparation and the integrity of the financial information prepared on the company and, where appropriate, the group, checking for compliance with legal provisions, the accurate demarcation of the consolidation perimeter, and the correct application of accounting principles.
- b) Monitor the independence of the unit handling the internal audit function; propose the selection, appointment, re-election and removal of the head of the internal audit service; propose the service's budget; approve its priorities and work programs, ensuring that it focuses primarily on the main risks the company is exposed to; receive regular report-backs on its activities; and verify that senior management are acting on the findings and recommendations of its reports.
- c) Establish and supervise a mechanism whereby staff can report, confidentially and, if appropriate and feasible, anonymously, any significant irregularities that they detect in the course of their duties, in particular financial or accounting irregularities.

2. With regard to the external auditor:

- a) Investigate the issues giving rise to the resignation of the external auditor, should this come about.
- b) Ensure that the remuneration of the external auditor does not compromise its quality or independence.
- c) Ensure that the company notifies any change of external auditor to the CNMV as a material event, accompanied by a statement of any disagreements arising with the outgoing auditor and the reasons for the same.
- d) Ensure that the external auditor has a yearly meeting with the board in full to inform it of the work undertaken and developments in the company's risk and accounting positions.
- e) Ensure that the company and the external auditor adhere to current regulations on the provision of non-audit services, limits on the concentration of the auditor's business and other requirements concerning auditor independence.

Comply Partially comply Explain |

Despite the fact that some of the mentioned functions are not specifically attributed to the committees in the social texts, these are carrying out the same de facto, particularly, those which are expressly stipulated by the article 529 of the Corporate Enterprises Act (and consequently, being directly applicable).

The Regulation of the Audit Committee includes expressly the following functions (in reference to the issues contained in the Recommendation 42) which gives, at least in a partial way and certainly not with a literally meaning, all the recommendations identified, for the internal control and the preparation of the information as well as for the external auditor:

"e. To analyze, together with the annual accounts auditors, the significant weaknesses of the internal control system identified during the auditing process. (Recommendation 42;2b)).

f. To supervise the preparation and disclosure process of the mandatory financial information. (Recommendation 42;1a)).

g. To propose to the Board of Directors for submission to the General Shareholders' Meeting, the appointment, re-election or replacement of the auditors, as well as the conditions of its recruitment, in accordance with the applicable regulation, and to obtain regularly from them such information regarding audit plan and execution, as well as preserve their independence in the exercise of its duties.

h. To supervise the activity of the Internal Audit area, which will depend functionally on the Audit and Compliance Committee. (Recommendation 42;1b)).

i. To establish the appropriate relations with the external auditors in order to obtain information in reference to issues which could put into risk their independence, for their exam by the Committee, and any others, regarding the account auditing development process, and any other communications contemplated in the annual accounts legislation and in the remaining auditing standards.

In any case, it should receive annually from the external auditors the written confirmation of their independence with the Company or with its subsidiaries directly or indirectly, as well as the information from any additional services and its fees provided by the external auditors or by people or related entities to them, in accordance with the account auditing process. (Recommendation 42;2)"

43. The audit committee should be empowered to meet with any company employee or manager, even ordering their appearance without the presence of another senior officer.

Comply Partially comply Explain

44. The audit committee should be informed of any fundamental changes or corporate transactions the company is planning, so the committee can analyse the operation and report to the board beforehand on its economic conditions and accounting impact and, when applicable, the exchange ratio proposed.

45. Risk control and management policy should identify at least:

- a) The different types of financial and non-financial risk the company is exposed to (including operational, technological, financial, legal, social, environmental, political and reputational risks), with the inclusion under financial or economic risks of contingent liabilities and other off- balance-sheet risks.
- b) The setting of the risk level that the company deems acceptable.
- c) Measures in place to mitigate the impact of risk events should they occur.
- d) The internal reporting and control systems to be used to control and manage the above risks, including contingent liabilities and off-balance-sheet risks.

Comply Partially comply Explain

46. Companies should establish a risk control and management function in the charge of one of the company's internal department or units and under the direct supervision of the audit committee or some other dedicated board committee. This function should be expressly charged with the following responsibilities:

- a) Ensure that risk control and management systems are functioning correctly and, specifically, that major risks the company is exposed to are correctly identified, managed and quantified.
- b) Participate actively in the preparation of risk strategies and in key decisions about their management.
- c) Ensure that risk control and management systems are mitigating risks effectively in the frame of the policy drawn up by the board of directors.

50. The remuneration committee should operate independently and have the following functions in addition to those assigned by law:

- a) Propose to the board the standard conditions for senior officer contracts.
- b) Monitor compliance with the remuneration policy set by the company.
- c) Periodically review the remuneration policy for directors and senior officers, including share-based remuneration systems and their application, and ensure that their individual compensation is proportionate to the amounts paid to other directors and senior officers in the company.
- d) Ensure that conflicts of interest do not undermine the independence of any external advice the committee engages.
- e) Verify the information on director and senior officers' pay contained in corporate documents, including the annual directors' remuneration statement.

The regulation of the Appointments and Compensation Committee set forth explicitly the following duties (referred to the issues explained in the recommendation 50). It covers partially, not completely, the mentioned recommendation.

- "a) Propose to the Board of Directors the standard conditions for Directors and senior officer remunerations and periodically review them, and if it would be necessary propose modifications and update to the Board of Directors. (Recommendations 50 a) and c)).
- k) Notify to the Board of Directors the proposals of the senior executive officer of the Company concerning the remunerations structure of senior officer and basic conditions of contracts. (Recommendations 50 a))
- l) Ensure the compliance of the Company remunerations programs and inform about the documents that must be approved by the Board of Directors. It is necessary to enable the dissemination of information concerning remunerations. Included the Annual Remunerations of Director's Report and the corresponding subsections from the Corporate Governance Annual Report. (Recommendations 50 b) and e))"

51. The remuneration committee should consult with the company's chairman and chief executive, especially on matters relating to executive directors and senior officers.

Comply Partially comply Explain

52. The terms of reference of supervision and control committees should be set out in the board of director's regulations and aligned with those governing legally mandatory board committees as specified in the preceding sets of recommendations. They should include at least the following terms:

- a) Committees should be formed exclusively by non-executive directors, with a majority of independents.
- b) They should be chaired by independent directors.
- c) The board should appoint the members of such committees with regard to the knowledge, skills and experience of its directors and each committee's terms of reference; discuss their proposals and reports; and provide report-backs on their activities and work at the first board plenary following each committee meeting.
- d) They may engage external advice, when they feel it necessary for the discharge of their functions.
- e) Meeting proceedings should be minuted and a copy made available to all directors.

Comply Partially comply Explain Not applicable

With regard to the Corporate Social Responsibility Committee, the recommendations applicable about the composition of the committee members are not fulfilled, inasmuch as there are not independent directors in the heart of the committee. The Company considers that external directors correctly carry out the duties attributable to this committee, the external directors have the identical criteria of correction and independence that an independence director, for this reason it is not considered required that the Chairman or the members of the committee is elected from the independent directors.

53. The task of supervising compliance with corporate governance rules, internal codes of conduct and corporate social responsibility policy should be assigned to one board committee or split between several, which could be the audit committee, the appointments committee, the corporate social responsibility committee, where one exists, or a dedicated committee established ad hoc by the board under its powers of self-organisation, with at the least the following functions:

- a) Monitor compliance with the company's internal codes of conduct and corporate governance rules.
- b) Oversee the communication and relations strategy with shareholders and investors, including small and medium-sized shareholders.
- c) Periodically evaluate the effectiveness of the company's corporate governance system, to confirm that it is fulfilling its mission to promote the corporate interest and catering, as appropriate, to the legitimate interests of remaining stakeholders.
- d) Review the company's corporate social responsibility policy, ensuring that it is geared to value creation.
- e) Monitor corporate social responsibility strategy and practices and assess compliance in their respect.
- f) Monitor and evaluate the company's interaction with its stakeholder groups.
- g) Evaluate all aspects of the non-financial risks the company is exposed to, including operational, technological, legal, social, environmental, political and reputational risks.
- h) Coordinate non-financial and diversity reporting processes in accordance with applicable legislation and international benchmarks.

Comply Partially comply Explain

54. The corporate social responsibility policy should state the principles or commitments the company will voluntarily adhere to in its dealings with stakeholder groups, specifying at least:
- The goals of its corporate social responsibility policy and the support instruments to be deployed.
 - The corporate strategy with regard to sustainability, the environment and social issues.
 - Concrete practices in matters relative to: shareholders, employees, clients, suppliers, social welfare issues, the environment, diversity, fiscal responsibility, respect for human rights and the prevention of illegal conducts.
 - The methods or systems for monitoring the results of the practices referred to above, and identifying and managing related risks.
 - The mechanisms for supervising non-financial risk, ethics and business conduct.
 - Channels for stakeholder communication, participation and dialogue.
 - Responsible communication practices that prevent the manipulation of information and protect the company's honour and integrity.

Comply Partially comply Explain

55. The company should report on corporate social responsibility developments in its directors' report or in a separate document, using an internationally accepted methodology.

Comply Partially comply Explain

56. Director remuneration should be sufficient to attract individuals with the desired profile and compensate the commitment, abilities and responsibility that the post demands, but not so high as to compromise the independent judgement of non-executive directors.

Comply Explain

57. Variable remuneration linked to the company and the director's performance, the award of shares, options or any other right to acquire shares or to be remunerated on the basis of share price movements, and membership of long-term savings schemes such as pension plans should be confined to executive directors.

The company may consider the share-based remuneration of non-executive directors provided they retain such shares until the end of their mandate. The above condition will not apply to any shares that the director must dispose of to defray costs related to their acquisition.

Comply Partially comply Explain

58. In the case of variable awards, remuneration policies should include limits and technical safeguards to ensure they reflect the professional performance of the beneficiaries and not simply the general progress of the markets or the company's sector, or circumstances of that kind.

In particular, variable remuneration items should meet the following conditions:

- Be subject to predetermined and measurable performance criteria that factor the risk assumed to obtain a given outcome.
- Promote the long-term sustainability of the Company and include non-financial criteria that are relevant for the company's long-term value, such as compliance with its internal rules and procedures and its risk control and management policies.

c) Be focused on achieving a balance between the delivery of short-, medium- and long-term objectives, such that performance-related pay rewards ongoing achievement, maintained over sufficient time to appreciate its contribution to long-term value creation. This will ensure that performance measurement is not based solely on one-off, occasional or extraordinary events.

Comply Partially comply Explain Not applicable

The CEO accrues a variable remuneration which depends on the compliance of the generic goals. (EBITDA). These objectives are amenable to be assessed and evaluated by Appointments and Compensation Committee (as objective levels of compliance are not previously established).

The Company does not consider relevant link the variable remuneration to objective, measurable and direct elements, whom relate remuneration and performance of the Company, beyond a generic element of compliance such as the levels of budgeted EBITDA.

Is not contemplated the need to introduce control mechanism such as mentioned in b) and c) .The relation between the Company and the Chief Executive Officer has demonstrated his commitment, loyalty and value creation for the Group.

The performance of executive directors, who receive this kind of remunerations, have typically been of high commitment and dedication. Furthermore, the returns for the Company have been so satisfactory that correlation measures are not required.

59. A major part of variable remuneration components should be deferred for a long enough period to ensure that predetermined performance criteria have effectively been met.

Comply Partially comply Explain Not applicable

In accordance with the explanation in the Recommendations number 58, the Company does not consider the variable remuneration of the Chief Executive Officer should be deferred, until the compliance of the objective would has been checked.

60. Remuneration linked to company earnings should bear in mind any qualifications stated in the external auditor's report that reduce their amount.

Comply Partially comply Explain Not applicable

The variable remuneration of the Chief Executive Officer does not take into account these circumstances, essentially as a result of the absence of qualifications in the financial statements report of the external auditors.

If qualification existed, the circumstances will be understood and consequences assessed by the Board of Directors in each particular situation.

61. A major part of executive directors' variable remuneration should be linked to the award of shares or financial instruments whose value is linked to the share price.

Comply Partially comply Explain Not applicable

62. Following the award of shares, share options or other rights on shares derived from the remuneration system, directors should not be allowed to transfer a number of shares equivalent to twice their annual fixed remuneration, or to exercise the share options or other rights on shares for at least three years after their award.

The above condition will not apply to any shares that the director must dispose of to defray costs related to their acquisition.

Comply Partially comply Explain Not applicable

The Company considers that the limitations of the present recommendations are unreasonable with the intention of the remuneration policy for the Chief Executive Officer and it does not support the plan incentive effect. In this sense, the explanation differs from the remunerator objective. Additionally there is no need to link the Executive Director remuneration to the performance, the reason is that he has developed his professional career in the Group and therefore there are not doubts about his commitment.

63. Contractual arrangements should include provisions that permit the company to reclaim variable components of remuneration when payment was out of step with the director's actual performance or based on data subsequently found to be misstated.

Comply Partially comply Explain Not applicable

The Company does not comply with the recommendation in the terms in which it is proposed.

The reasoning applicable to this circumstance is the following: the remunerations to which the executive directors are entitled are not linked to performance or equivalent objective parameters; it is the Board of Directors who determines in an autonomous and discretionary way the amounts to be paid for these variable remunerations (except for the CEO, whose variable remuneration does depend on objective criteria, although not quantified).

That is why, to the extent that they are not taken into account in their concession, mechanisms that imply a reimbursement linked to a possible ex post demonstration of the performance failure cannot be arbitrated.

64. In addition, the Bank has adopted a policy on the application of malus clauses in the field of remuneration. Termination payments should not exceed a fixed amount equivalent to two years of the director's total annual remuneration and should not be paid until the company confirms that he or she has met the predetermined performance criteria.

Comply Partially comply Explain Not applicable

The agreement between the Chief Executive Officer of Global Dominion Access, S.A. and the aforementioned Company includes a provision granting a compensation in case of early termination that does not strictly comply with the second part of the recommendation.
